

Accessing ConnSCU Guests Wireless from iPad/iPhone

(Revision Date: 9/16/13)

Introduction

This is an encrypted wireless network for guests. It is the recommended wireless network for anyone who does not have an account in the Commnet or CSU domains. You will need to request access for login credentials from your [local IT department](#).

You will need a wireless device which supports WPA2 in order to connect to this network, and you will have to configure a wireless connection (see details below for platform specific information) before you can connect.

Connecting to the ConnSCU Guests Wireless Network

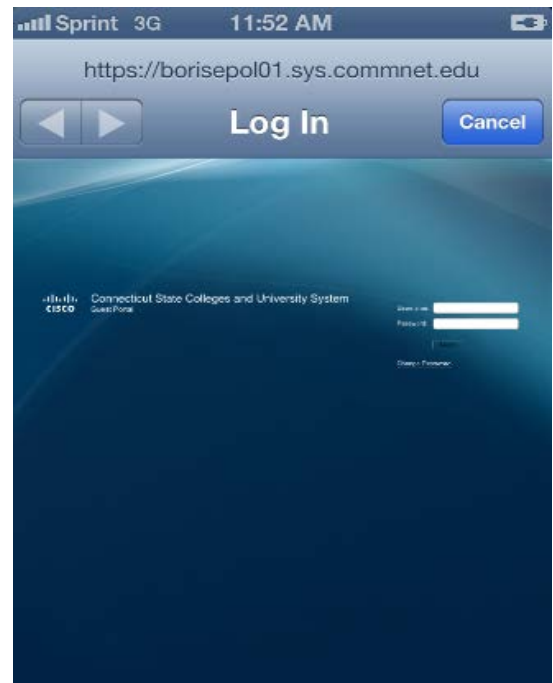

Step 1 - Access 'Settings' from your iPad/iPhone and select 'Wi-Fi' as shown below:

Step 2 – Ensure the 'Wi-Fi' slider is set to 'On' as shown, and select 'ConnSCU Guests':

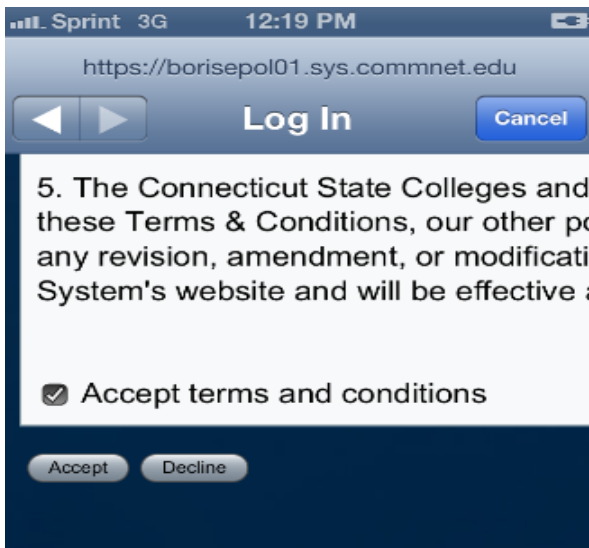

Step 3 – After selecting the 'ConnSCU Guests' network, you will notice a checkmark next to the network and then be automatically redirected to the Guest Portal Page:

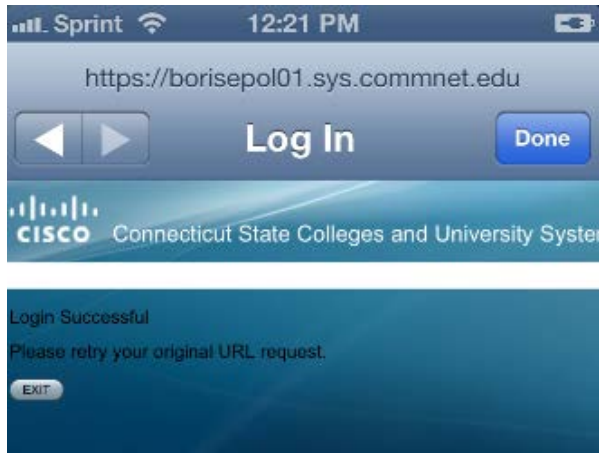

Step 4 - Login with the username and password provided when you requested access and press 'Go'

Step 5 – You'll be presented with the Acceptable Use Policy. If, after reading the policy, you agree to the conditions, check the box for **Accept terms and conditions** and press the **Accept** button:

Step 6 – Once accepted, you will receive the following screen; select 'Done' and you may now browse the Internet:

Finished!

Contacting Support

If you have any issues or questions, please contact your [local IT department](#).
